

REMARKS

This Application has been carefully reviewed in light of the Final Office Action mailed December 31, 2009 ("*Office Action*"). At the time of the *Office Action*, Claims 1-21 were pending in the application. The *Office Action* rejects Claims 1-20 and withdraws Claim 21 from consideration. In order to advance prosecution, Applicants have cancelled Claims 1-20, amended Claim 21, and added new Claims 22-41. No new matter has been added. Applicants respectfully request reconsideration and favorable action in this case.

Election/Restriction

The *Office Action* contends that Claim 21 is directed to an invention distinct from the invention originally claimed in Claims 1-20. The *Office Action* has restricted the application to the previously presented Claims 1-20 and has withdrawn from consideration Claim 21. In order to advance prosecution, Applicants have cancelled Claims 1-20 and respectfully request that amended Claim 21 and new Claims 22-41 be considered.

Claims 1-20

The Examiner rejects Claims 1- 20 under 35 U.S.C. 103(a) based on combinations of U.S. Patent No. 5,598,187, issued to Ide et al. ("*Ide*"), U.S. Patent App. No. 2004/0061621, filed by Ishida ("*Ishida*"), and WO 01/86920 issued to Lapidot ("*Lapidot*"). While applicants respectfully disagree with the rejections, in order to advance prosecution applicants have cancelled Claims 1-20.

Claims 21-41

As amended, Claim 21 recites a tilt detection component that comprises a first camera operable to generate a first video stream. Nowhere is this disclosed, taught, or suggested by *Ide*, *Ishida*, or *Lapidot*, either alone or in combination. Accordingly, for at least this reason, Applicants respectfully request that Claim 22, and all claims depending therefrom, be
